## **Independent Auditors' Report**

To the Board of Trustees  
Maywood Public Library District  
Maywood, Illinois

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Maywood Public Library District as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Maywood Public Library District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Maywood Public Library District, as of June 30, 2024, and the respective changes in financial position and cash flows, where applicable, thereof for the year ended in conformity with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Maywood Public Library District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Maywood Public Library District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Maywood Public Library District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Maywood Public Library District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, major fund budgetary schedules, and certain pension and post-employment benefit disclosures be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance

## **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Maywood Public Library District basic financial statements. The combining and individual fund financial statements and schedules for non-major funds, and other non-required supplemental schedules as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements schedules for non-major funds and other non-required supplemental schedules as listed in the table of contents are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## **Other Information**

Management is responsible for the other information included within the audit report. The other information comprises of the introductory and statistical sections, as listed in the table of contents, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Maywood Public Library District  
Management's Discussion and Analysis  
June 30, 2024**

The Maywood Public Library District (hereinafter referred to as the Library) Management's Discussion and Analysis are designed to: (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Library's financial activity, (3) identify changes in the Library's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget) and (5) identify individual fund issues or concerns.

The Management's Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Since the MD&A is designed to focus on the current year's activities, resulting changes, and currently known facts, please read it in conjunction with the Library's financial statements (beginning on page 11).

**Financial Highlights**

1. At June 30, 2024, total assets and deferred outflows were \$6,666,249 and total liabilities and deferred inflows were \$274,957 compared to total assets and deferred outflows of \$6,097,514 and total liabilities and deferred inflows of \$296,937 at June 30, 2023. At June 30, 2024, net position was \$6,66,249, while at June 30, 2023, total net position was \$5,800,577. The portion of net position invested in capital assets, net of related debt was \$2,997,321 and \$3,226,889 at June 30, 2024 and 2023, respectively.
2. Overall, total revenues for all funds in 2024 were \$1,818,212 and total expenses were \$1,227,497 as compared to 2023 total revenues of \$1,733,231 and total expenses of \$1,212,481. Overall, there was an increase of \$590,715 in total fund balances from \$5,800,577 in 2023 to \$6,391,292 in 2024.
3. Property tax collections received in fiscal year 2024 were \$1,568,447 compared to \$1,472,655 received in fiscal year 2023.

**Overview of the Financial Statements**

Management's Discussion and Analysis introduces the Library's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The Library also includes in this report additional information to supplement the basic financial statements.

**Maywood Public Library District  
Management's Discussion and Analysis (Continued)  
June 30, 2024**

**Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the Maywood Public Library District finances in a manner similar to a private-sector business. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The *Statement of Net Position* presents information on all the Maywood Public Library District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in the net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the Library's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., property taxes levied for general purposes).

The government-wide financial statements can be found on pages 11 - 12 of this report.

**Fund Financial Statements**

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Library uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Library's most significant funds rather than the Library as a whole and therefore provide additional information that won't be found in the statement of net position or the statement of activities. Major funds are separately reported, while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

*Governmental funds* are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different, with the fund statements providing a distinctive view of the Library's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

**Maywood Public Library District  
Management's Discussion and Analysis (Continued)  
June 30, 2024**

**Notes to the Financial Statements**

Budgetary comparison statements are included in the basic financial statements for the General Fund and major special revenue funds. Budgetary comparison schedules for other special revenue funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the Library's adopted annual appropriated budget. The basic governmental fund financial statements are presented on pages 13 - 16 of this report.

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17 – 35 of this report.

**Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget to actual comparisons, statistical analysis tables, and progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 36 through 39 of this report.

Major funds are reported in the basic financial statements, as discussed. Combining and individual statements and schedules for non-major as well as supplemental schedules for the major funds are presented in a subsequent section of this report beginning on page 40.

**Government-wide Financial Analysis**

As stated previously, net position may serve over time as a useful indicator of a government's financial position. In the case of the Library, assets and deferred outflows exceeded liabilities and deferred inflows by \$6,391,292 at June 30, 2024. Contributing to the Library's net position, \$2,997,231 reflects its net investment in capital assets (e.g., land, buildings and improvements, and furniture and equipment), less any related outstanding debt used to acquire those assets. The Library uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Library's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the Library's net position, \$1,147,024, represents resources that are subject to external restrictions on how they may be used.

**Maywood Public Library District  
Management's Discussion and Analysis (Continued)  
June 30, 2024**

**Statement of Net Position**

A comparison of the statement of net position for the last two fiscal years is shown on the following page. As noted earlier, the District's combined net position increased by \$590,715.

**Statement of Net Position

Net Position - Beginning of Year	5,800,577	5,279,827
Net Position - End of Year	\$ 6,391,292	\$ 5,800,577

**Maywood Public Library District  
Management's Discussion and Analysis (Continued)  
June 30, 2024**

**Governmental Activities**

As stated previously, Governmental Activities increased the District's net position by \$590,715. Key elements of the entity-wide performance are as follows:

- During the fiscal year ended 2024, the District's net position increased mainly due to an increase in property taxes.
- Total library expenses increased 1.2% to \$1,227,497 in 2024 from \$1,212,481 the previous year due to an increase in personnel costs.
- Total revenues increased 4.9% to \$1,818,212 in 2024 from \$1,733,231 the previous year. Most of this increase is due to an increase of 6.5% or \$95,792 in property taxes.

**Financial Analysis of the Districts Funds**

**Governmental Funds**

As discussed, governmental funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported a healthy ending fund balance of \$2,192,296. Only \$1,210,567 of these funds are non-spendable, restricted, or assigned, indicating the availability of the balance of funds for continuing operations.

The total ending fund balance of governmental funds shows an increase of \$589,471 from the prior fiscal year. This increase is primarily the result of increased property taxes and a decrease in total costs.

**Major Governmental Funds**

The General fund is the primary fund of the District. The General Fund surplus as of June 30, 2024, was \$981,729, an increase of \$550,595 from the prior year.

**Governmental Funds Budgetary Highlights**

Actual revenues in the General fund were \$1,625,078, which underperformed budget estimates by \$212,596 due mainly to grants and donations. Additionally, actual expenditures were \$1,074,483, which underperformed budget estimates by \$647,067.

The General fund's net change in revenues over expenditures was a positive \$550,595. The fund balance increased to \$981,729 from \$431,134 the previous year.

**Maywood Public Library District  
Management's Discussion and Analysis (Continued)  
June 30, 2024**

**Capital Asset and Debt Administration**

**Capital Assets**

The District's investment in capital assets, net of accumulated depreciation for governmental activities as of June 30, 2024, was \$3,040,556. This was a result of a net decrease in capital assets of \$186,333.

**Debt Administration**

As of June 30, 2024, the District had no long-term debt.

**Factors Bearing on the District's Future**

At the time these financial statements were prepared and audited, the District was not aware of any existing circumstances that would adversely affect its financial health in the near future.

**Contacting the Library's Management**

This financial report is designed to provide a general overview of the District's finances. If you have any questions about this report or require additional information, please contact the Library Director at Maywood Public Library District, 121 South 5<sup>th</sup> Avenue, Maywood, Illinois 60153.

**June 30, 2024**

Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Position:

Amounts reported in the Statement of Net Position are different because:

Fund Balance - Balance Sheet of Governmental Funds	2,192,296
--	-----------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:	3,040,556
---	-----------

Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenue in the funds:

Net IMRF Pension Asset	35,004
------------------------	--------

IMRF deferred items related to changes in pension assumptions and differences between expected and actual pension plan experience	183,889
---	---------

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds:

Accrued Vacation	(14,649)
------------------	----------

Deferred Property Taxes	984,041
-------------------------	---------

<b>Net Position of Governmental Activities</b>	<u><u>\$ 6,391,292</u></u>

**For the Year Ended June 30, 2024**

Net Change in Fund Balances - Total Governmental Funds	\$ 589,471
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:	
Capital outlays	56,495
Depreciation expense	(242,828)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:	
Change in deferred property taxes	31,554
Change in deferred outflow related to pension investment experience, changes in pension assumptions, and difference between expected and actual pension plan experience	(90,481)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:	
Change in accrued vacation	9,804
Change in net pension liability/asset	266,545
Change in deferred inflows related to difference between expected and actual pension plan experience	(29,845)
<b>Change in Net Position of Governmental Activities</b>	<b>\$ 590,715</b>

**Maywood Public Library District  
Notes to the Financial Statements  
For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies**

The District is incorporated in Maywood, Illinois. The mission of the District is to maintain excellence in providing the best possible materials in regard to educational, technological, and recreational use for its community. The District's focus is to continue to research, evaluate, and generate outreach programs for the benefit of the Maywood community.

The financial statements of the Maywood Public Library District (the "District") have been prepared in conformity with Generally Accepted Accounting Principles as applied to local governments. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below:

Financial Reporting Entity

The accompanying financial statements present the District's primary government and any component units over which the District exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the District (as distinct from legal relationships). Management has considered all potential component units and has determined that there are no entities outside of the primary government that should be blended into or discretely presented with the District's financial statements.

Government-Wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. Government-wide statements report information on all of the activities of the District as a whole (except for fiduciary activities) and distinguish between the governmental and business-type activities of the District. Governmental activities, which are normally supported by taxes and governmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's library services and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

**Maywood Public Library District**  
**Notes to the Financial Statements (Continued)**  
**For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies (Continued)**

Fund Financial Statements

Separate fund financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds include other Special Revenue funds. The combined amounts for these funds are reflected in a single column titled "Other Governmental Funds" in the fund Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances. Detailed statements for non-major funds are presented with Combining and Individual Fund Statements and Schedules in the supplemental schedules of the financial statements.

Funds are organized as major funds or non-major funds within the governmental statements. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the entity or meets the following criteria:

Total assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures, and expenses of the individual governmental fund or enterprise fund are at least ten percent of the corresponding total for all funds of that category or type and;

Total assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures, and expenses of the individual governmental or enterprise fund are at least five percent of the corresponding total for all governmental and enterprise funds combined.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements when applicable. Revenues are recognized when earned, and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are those which governmental functions of the District finance. The acquisition, use, and balances of the District's expendable resources and the related liabilities are accounted for through governmental funds. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government does *not* consider revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recognized when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims, and judgments, are reported only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

**Maywood Public Library District**  
**Notes to the Financial Statements (Continued)**  
**For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies (Continued)**

Measurement Focus and Basis of Accounting (Continued)

Property taxes, sales taxes, franchise taxes, licenses, charges for service, amounts due from other governments, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period if applicable. Charges for sales and services and miscellaneous revenues are generally recorded as revenue when received in cash because they are generally not measurable until actually received.

Basis of Presentation

The accounts of the District are organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts. The various funds are summarized by type within the financial statements.

The District reports the following major governmental funds:

The General Fund is the primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Expenditures from this fund provide basic District services, such as finance and data processing, personnel, and general administration of the District. Revenue sources include taxes, which include property taxes, replacement taxes, interest income, and other income.

The Social Security Fund, which accounts for employer's portion of Federal Social Security and Medicare taxes.

The IMRF Fund, which accounts for employer contributions paid to the state-sponsored Illinois Municipal Retirement Fund (IMRF).

The Liability Insurance Fund, which accounts for insurance expenditures related to the District risk management activities.

Additional governmental fund types which are combined as non-major funds are as follows:

Non-major Special Revenue Funds: These funds are used to account for and report the proceeds of specific revenue sources that are restricted or assigned to expenditure for a specific purpose. The District reports the Unemployment Compensation Fund, Workers Compensation Fund, Library Building and Site Fund, Audit Fund, and Capital Projects Fund as non-major special revenue funds.

**Maywood Public Library District  
Notes to the Financial Statements (Continued)  
For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies (Continued)**

Basis of Presentation (Continued)

Proprietary fund level financial statements are used to account for activities, which are similar to those found in the private sector. The measurement focus is upon the determination of net income, financial position, and cash flows. The District reports no proprietary funds.

When applicable, on the proprietary fund financial statements, operating revenues are those that flow directly from the operations of the activity, i.e., charges to customers or users who purchase or use the goods or services of that activity. Operating expenses are those that are incurred to provide those goods or services. Non-operating revenues and expenses are items such as investment income and interest expense that are not a result of the direct operations of the activity.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Fiduciary fund level financial statements are custodial in nature and are merely clearing accounts for assets held by the District as an agent for individuals, private organizations, or other governments. Fiduciary funds are excluded from government-wide financial statements. The District reports no fiduciary funds.

Cash and Investments

For the purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with a fiscal agent. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value.

Pooled Cash

Cash resources of the individual governmental fund types are combined to form a pool of cash and, when applicable, investments. At June 30, 2024, the District's cash was deposited in demand accounts and money market savings accounts.

Interfund Activity

During the course of normal operations, the District has transactions between funds, including expenditures and transfers of resources to provide services and construct assets. Legally authorized transfers are treated as transfers and are included in the results of operations of Governmental Funds and, when applicable, Proprietary Funds. Transactions between funds that are representative of cash overdrafts from pooled cash and investing are reported as interfund receivables or payables. Short-term amounts owed between funds are classified as "Due to/from other funds."

**Maywood Public Library District**  
**Notes to the Financial Statements (Continued)**  
**For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies (Continued)**

Receivables

Receivables consist of all revenues earned at year-end that are not yet received as of June 30, 2024. Major receivable balances for governmental activities include property taxes and replacement taxes. The District carries its receivables at cost less an allowance for doubtful accounts. On a periodic basis, the District evaluates its receivables and establishes the amount of its allowance for doubtful accounts based on a history of past write-offs and collections. The allowance for doubtful accounts amounts to \$0 for property taxes receivable and \$0 for replacement taxes receivable.

Prepaid Items and Prepaid Expenditures

Payments made to vendors for services that will benefit periods beyond June 30, 2024, are recorded as prepaid items/expenditures using the consumption method of recognition.

Inventory

Inventory is valued at a cost which approximates the lower of cost or net realizable value using the first-in/first-out (FIFO) method. The District reports no inventory as of June 30, 2024.

Deferred Revenue/Unearned Revenue

When applicable, the District reports unearned revenues on its Statement of Net Position and deferred revenues on its Governmental Funds Balance Sheet. For governmental fund financial statements, deferred revenues occur when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the Governmental Funds Balance Sheet, and revenue is recognized accordingly.

Compensated Absences

Accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of the governmental fund that will pay it. Accumulated vacation and sick leave of proprietary funds are recorded as an expense and liability of those funds as the benefits accrue to employees. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

District employees are entitled to paid vacation time and sick leave in varying amounts based on years of service. Upon termination, employees will be paid for unused vacation but not for unused sick pay benefits. The District accrues accumulated unpaid vacation in the government-wide financial statements.

**Maywood Public Library District**  
**Notes to the Financial Statements (Continued)**  
**For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies (Continued)**

Capital Assets

Capital assets, which include land, buildings and improvements, equipment, and, when applicable, infrastructure assets (e.g., roads and bridges), are reported in the applicable government or business-type activities columns in the government-wide statements. Capital assets are defined as assets with a cost of \$1,000 or more. Capital assets are recorded at historical cost if purchased or constructed or at estimated historical cost if the actual historical cost is not available. Donated capital assets, donated works of art and similar items, and capital assets received in a service arrangement are reported at acquisition value rather than fair value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation on all assets is computed using the straight-line method over the following estimated lives:

Buildings and Improvements	7 to 25 years
Furniture and Equipment	5 to 10 years
Library Collection	5 years

GASB Statement 34 requires the reporting and depreciation of the new infrastructure expenditures effective at the beginning of the implementation year.

Finance Leases

Leases that span more than twelve months that are material in nature to the financial statements, and that do not transfer ownership are recognized as a right-of-use asset and finance lease liability. The right-of-use assets are measured at an amount equal to the present value of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The right-of-use assets are amortized on a straight-line basis over the life of the related lease. Finance leases that transfer ownership that are material in nature to the financial statements are recognized as capital assets at cost and a related lease liability. The District reports no finance leases.

Subscription-Based Information Technology Arrangements

A Subscription-Based Information Technology Arrangements (“SBITAs”) is a contract that conveys control of the right to use another party's information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction. SBITAs that span more than twelve months that are material in nature to the financial statements are recognized as a subscription right-of-use asset and subscription liability. The right-of-use assets are measured at an amount equal to the present value of the related subscription liability. The right-of-use assets are amortized on a straight-line basis over the life of the related subscription. The District reports no material long-term SBITAs.

**Maywood Public Library District**  
**Notes to the Financial Statements (Continued)**  
**For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies (Continued)**

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources, or expenses/expenditures, until then. The District has deferred changes in proportion dealing with pensions and contributions made after the measurement date. The District currently does not have deferred charges on refunding debt. These represent a consumption of net position that applies to future periods and is not recognized as an outflow of resources until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources, or revenues, until that time. A deferred inflow of resources dealing with a pension is reported for the differences between expected and actual experience, the net difference between projected and actual earnings on pension investments, and changes of assumptions. Currently, the District does not have non-exchange revenue transactions where a receivable has been recorded because property taxes were levied, but the resources cannot be used until a future period. As such, deferred property taxes are not reported as a deferred inflow on the government-wide statement of net position.

Long-Term Liabilities

Long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources.

*Non-spendable fund balance* - The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form - prepaid items or inventories; or (b) legally or contractually required to be maintained intact. The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

*Restricted fund balance* - This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

**Maywood Public Library District**  
**Notes to the Financial Statements (Continued)**  
**For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies (Continued)**

Fund Balances (Continued)

*Committed fund balance* - Amounts can only be used for specific purposes pursuant to constraints imposed by ordinances of the District Board of Trustees - the government's highest level of decision-making authority. These committed amounts cannot be used for any other purpose unless the District Board of Trustees removes the specified use by ordinance. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned fund balance* - This classification reflects assets constrained by the expressed written intent of the District Board of Trustees for capital equipment and/or capital projects.

*Unassigned fund balance* - This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use externally restricted resources first, then unrestricted resources - committed, assigned, and unassigned - in order as needed. The District does not have a stabilization policy established.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. If different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first, followed by assigned, and, lastly, unassigned funds.

Net Position Classifications

In the government-wide financial statements, equity is shown as net position and classified into three components:

*Net investment in capital assets* - These amounts consist of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Net investment in capital assets excludes unspent bonds or other debt proceeds.

*Restricted net position* - These amounts consist of net position with constraints placed on its use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. It is the District's policy to consider the restricted net position to have been depleted before the unrestricted net position is applied.

*Unrestricted net position* - These amounts consist of all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

**Maywood Public Library District  
Notes to the Financial Statements (Continued)  
For the Year Ended June 30, 2024**

**1. Summary of Significant Accounting Policies (Continued)**

Budgets

The Board of Trustees follows these procedures in establishing the budget:

1. The Director and budget committee prepare a proposed operating budget, which is submitted to the Board of Trustees for their approval. The budget document is made available for public inspection for at least 30 days prior to Board action.
2. The Board of Trustees is required to hold at least one public hearing prior to the passage of the annual Budget and Appropriation Ordinance. The budget is an estimate of actual expenditures, and the appropriation represents the legal spending limit.
3. The Budget and Appropriation Ordinance must be enacted into law prior to the end of the first quarter of the fiscal year (July 1).
4. The Board of Trustees has the power to: Amend the Budget and Appropriation Ordinance in the same manner as its enactment, transfer between line items of any fund an amount not exceeding in the aggregate 10% of the total amount appropriated for that fund, and after six months of the fiscal year, by a two-thirds vote, transfer any appropriation item it anticipates being unexpended to any other appropriation item.
5. Expenditures legally may not exceed the total appropriations at the fund level. All unspent budgetary amounts lapse at year-end. The budget information in the financial statements includes adjustments made during the year.

The budget is prepared for all funds on the same basis as the basic financial statements and is consistent with GAAP. The budget is derived from the annual Budget and Appropriation Ordinance of the District. All budgetary funds are controlled by an integrated budgetary accounting system in accordance with various legal requirements, which govern the District.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property Taxes

Property taxes become an enforceable lien on the property as of January 1. Taxes are levied each year and are payable in two installments, generally due in March and August of the following year. Cook County bills and collects all property taxes and remits them to the District. The District recognizes property taxes in the year in which they attach as an enforceable lien and are available.

**Maywood Public Library District**  
**Notes to the Financial Statements (Continued)**  
**For the Year Ended June 30, 2024**

**2. Deposits and Investments**

Deposits

At June 30, 2024, the carrying amount of the District's demand deposits in financial institutions was \$2,348,738, and the bank balance was \$2,356,716.

Custodial Credit Risk - Deposits

In the case of cash deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2024, the District had \$1,856,716 funds which were not insured or covered by collateral. The District has not experienced any losses in such accounts and believes it is not exposed to any significant custodial credit risk on cash and cash equivalents.

Investments

It is the policy of the District to invest public funds in a manner to conform to all state and local statutes governing the investment of public funds; ensure prudent money management; provide for daily cash flow requirements; and meet the objectives, in priority order, of safety, liquidity, return on investment and public trust. The District's general credit risk policy is to apply the prudent person rule: Investments shall be made with the exercise of judgment and care, under circumstances then prevailing, which individuals of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital, as well as the probable income to be derived.

The District's investment policy permits the District to invest in: bonds, notes, certificates of indebtedness, treasury bills or other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest, bonds, notes debentures or similar obligations of the agencies of the United States of America; interest-bearing savings accounts, certificates of deposit, time deposits or other investment constituting direct obligations of a bank as defined by the Illinois Banking Act; short-term obligations (maturing within 180 days of dates of purchase) of corporations with assets exceeding \$500 million (such obligations must be rated at the time of purchase as AAA by at least two standard rating services); money market mutual funds registered under the Investment Company Act of 1940 which invest only in bonds, notes, certificates of indebtedness, treasury bills and other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest and agrees to repurchase such obligations; state and local government obligations or operated and administered by a bank and other securities as allowed by the Illinois Public Funds Investment Act.

**Maywood Public Library District  
Notes to the Financial Statements (Continued)  
For the Year Ended June 30, 2024**

**5. Compliance and Accountability**

At June 30, 2024, none of the District's funds had deficit fund balances.

The following funds of the District had an excess of actual expenditures over the legally enacted budgeted amount for the year ended June 30, 2024:

<u>Fund</u>	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
Unemployment Compensation	\$ 5,250	\$ 6,481	\$ (1,231)
Workers Compensation	1,050	3,981	(2,931)

**6. Interfund Transactions**

In general, transfers are used to (1) move revenues from the fund that collects the money to the fund that expends the money, (2) move receipts restricted or earmarked for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in a fund to provide operating advances to other funds in accordance with budgetary authorizations.

At June 30, 2024, no interfund receivables and payables exist.

During the year ended June 30, 2024, there were no interfund transfers.

**7. Risk Management**

The District is exposed to various risks of loss to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; natural disasters; and employee health. These risks are covered by commercial insurance purchased from independent third parties.

**8. Commitments and Contingencies**

As of June 30, 2024, the District had no material commitments and no contingencies.

**9. Evaluation of Subsequent Events**

The District has evaluated subsequent events through December 16, 2024, the date which the financial statements were available to be issued.

**Maywood Public Library District**  
**Notes to the Financial Statements (Continued)**  
**For the Year Ended June 30, 2024**

**10. Governmental Accounting Standards Board (GASB) Statements**

Recently Implemented GASB Statements Relevant to the District

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, was issued March 2020 and was adopted by the District during the year ended June 30, 2023.

Statement No. 96, *Subscription-Based Information Technology Arrangements*, was issued May 2020 and was adopted by the District during the year ended June 30, 2023.

Upcoming GASB Statements Relevant to the District

Statement No. 100, *Accounting Changes and Error Corrections*, was issued June 2023 and will be effective for the District with the year ending June 30, 2024.

Statement No. 101, *Compensated Absences*, was issued June 2023 and will be effective for the District with the year ending June 30, 2024.

The District management has not yet determined the effect these Statements will have on the District's financial statements.

**11. Other Post-Employment Benefits (OPEB)**

The District has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the District are required to pay 100% of the current premium. However, no former employees have chosen to stay in the District's health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Additionally, the District had no former employees for which the District was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the District has not recorded any post-employment benefits liability as of June 30, 2024.

**Maywood Public Library District  
Notes to the Financial Statements (Continued)  
For the Year Ended June 30, 2024**

**12. Retirement Fund Commitments**

Illinois Municipal Retirement Fund

*Plan Description.* The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained online at [www.imrf.org](http://www.imrf.org).

*Benefits Provided.* IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date). All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last ten years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Funding Policy.* As set by statute, the District Regular plan members are required to contribute 4.50 percent of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate from the fiscal year was 6.58 percent of annual covered payroll. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Deferred Outflows and Deferred Inflows of Resources by Source  
(to be recognized in Future Pension Expenses)

	Deferred Outflows of Resources	Deferred Inflows of Resources
1. Difference between expected and actual experience	\$ 0	\$ 29,232
2. Assumption Changes	0	613
3. Net Difference between projected and actual earnings on pension plan investments	172,424	0
4. Subtotal	172,424	29,845
5. Pension contributions made subsequent to the measurement date	11,465	0
6. Total	\$ 183,889	\$ 29,845

Deferred outflows and deferred inflows of resources will be recognized in future pension expense as follows:

Plan Year Ending December 31	Net Deferred Outflows of Resources
2024	\$ (17,043)
2025	58,295
2026	124,599
2027	(23,272)
2028	0
Thereafter	0
	\$ 142,579

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation.

**Maywood Public Library District  
Notes to the Financial Statements (Continued)  
For the Year Ended June 30, 2024**

Illinois Municipal Retirement Fund (Continued)

<u>Asset Class</u>	<u>Portfolio Target Percentage</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	35.50%	6.50%
International Equity	18.00%	7.60%
Fixed Income	25.50%	4.90%
Real Estate	10.50%	6.20%
Alternative Investments	9.50%	6.25% - 9.90%
Cash Equivalents	<u>1.00%</u>	4.00%
	<u>100.00%</u>	

The single discount rate is calculated in accordance with GASB Statement No. 68. GASB Statement No. 68 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a "risk-free" rate is required, as described in the following paragraph. The single discount rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 2.75%; and the resulting single discount rate is 7.25%.

Sensitivity of Net Pension Liability/(Asset) to the  
Single Discount Rate Assumption

	1% Decrease	Current Single Discount Rate Assumption	1% Increase

Summary of Actuarial Methods and Assumptions  
Used in the Calculation of the Total Pension Liability

Methods and Assumptions Used to Determine Total Pension Liability:

Actuarial Cost Method	Entry-Age Normal
Asset Valuation Method	Market Value of Assets
Price Inflation	2.25%
Salary Increases	2.85% to 13.75%
Investment Rate of Return	7.25%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2023 valuation pursuant to an experience study of the period 2020 -2022.
Mortality	For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount- Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP- 2021.

Other Information: There were no benefit changes during the year.

**Notes to the Multiyear Schedule of Contributions:**

The information presented was determined as part of the actuarial valuations as of January 1 of the prior calendar year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed, and the amortization period was 20 years; the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of 7.25% annually and projected salary increases assumption of 2.75% to 13.75% including inflation.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.

\$ 364,439,895

Statutory Debt Limitation

The debt limitations per Chapter 50 ILCS 405/1 does not apply to any indebtedness of any library district incurred for acquiring or improving sites, constructing, extending or improving and equipping sites for public library purposes or for the establishment, support and maintenance of a public library, under the provisions of "The Illinois Public Library District Act".
